DESIGN + PERFORMANCE™

NEW COLLECTIONS UPHOLSTERY

A blurred industrial scene featuring a long, straight row of vertical metal rods or pipes extending into the distance. The rods are in sharp focus in the middle ground, while the foreground and background are heavily blurred, creating a sense of depth and motion. The lighting is warm, with a bright light source at the end of the row of rods. The overall composition is dynamic and industrial.

MARINE
FABRICS

A close-up photograph of a red, textured fabric surface, likely a Sunbrella umbrella, resting on a dark, rough, textured material. Three water droplets of varying sizes are scattered across the fabric, demonstrating its water-repellent properties. The background is a bright, out-of-focus white surface.

WHY
SUNBRELLA® ?

OUR
KNOW-HOW

100% Sunbrella® Acrylic

PIECE DYED

Fabric is dyed after weaving

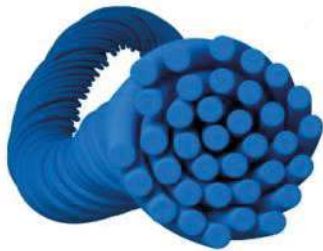

YARN DYED

White yarn is dyed after spinning and before weaving

SUNBRELLA® SOLUTION DYED ACRYLIC

Colour pigments are locked right into the very heart of the fibres during the initial stage of the manufacturing process, before the yarn is even spun.

Sunbrella® colours stand up to years of sun and light exposure.

SUN
PROTECTION

A dense, misty forest of evergreen trees, likely spruce or fir, covering a hillside. The trees are a vibrant green, and a soft, white mist or fog hangs in the air, particularly on the left side of the image, creating a serene and atmospheric scene. The lighting is soft, suggesting an overcast day or early morning.

A brand that cares
ABOUT THE ENVIRONMENT

PRODUCT LIFECYCLE MANAGEMENT

As part of its Renaissance program, Sunbrella® created the Heritage Renaissance line containing up to 50% recycled solution-dyed acrylic fibres.

Recycled fibres are sourced directly from production plants where waste is divided into colour groups and turned back into fibres. These fibres are then blended with the “virgin” Sunbrella® fibres.

LESS WASTE

Our quality Sunbrella fabrics do not rot or fade and are highly resistant over time. As our fabrics do not need to be replaced as often as traditional fabrics, they generate less waste.

Today, every Sunbrella manufacturing facility around the globe sends absolutely no waste to the landfill.

LOW WATER CONSUMPTION

In the solution-dyeing process, colour pigments are added to the yarn as it is spun, to guarantee colourfastness and save water. The small amount of water used in our weaving process is fully recycled in-house.

Certifications

ISO 9001
ISO 14001
ISO 45001
BUREAU VERITAS
Certification

QSEE Certifications (QUALITY-SAFETY- ENVIRONMENT- ENERGY)

ISO 9001, ISO 14001, ISO 45001 AND ISO 50001

As part of our continuous improvement approach, and to better meet the needs of customers, our products are certified to international standards by Bureau Veritas Certification. These standards guarantee the consistent quality of our products, protect the ecosystem, improve energy performance and enhance the efficiency of Dickson Constant's QSEE system.

Sunbrella upholstery fabric has achieved GREENGUARD GOLD Certification. Sunbrella upholstery fabrics are certified by GREENGUARD as contributing to healthy indoor air by being a very low emitting interior product.

A quality that meets human-ecological requirements. Awarded with the OEKO-TEX label (class II - products with direct contact to the skin), Sunbrella fabrics are produced without hazardous substances and do not pose a threat to health, the skin or the environment. *

LIMITED WARRANTY

Sunbrella acrylic guarantees outstanding colourfastness.

* Does not apply to Sunbrella Sling

DESIGN
EXPERTISE

IN 2021,
SUNBRELLA®
IS RENEWED

A close-up photograph of a chair's seat and backrest, showcasing various Sunbrella fabric textures and colors. The top left corner features a blue and white striped fabric with small orange diamond patterns. Below it is a solid blue fabric. The main body of the chair is covered in a textured, reddish-orange fabric. The bottom edge of the chair is made of a dark, textured material, possibly cork or a similar natural material. The background is a light-colored, textured surface, likely a carpet or rug.

STRONG AND ANTHENTIC,
THE SUNBRELLA COLLECTIONS
TAKE YOU TO NEW FABRIC HORIZONS.

HERITAGE

This upholstery fabric made of 50% virgin fibres and 50% recycled fibres reflects our commitment to the environment. Colorful fibre ends from the process of reusing the primary material may appear in the weave and vary the fabric colour from one batch to another. This creates a unique fabric with a natural look and vintage charm.
