CHARACTERISTICS

INDOOR

Composition:	Topcoat : 34% Polyurethane
Backing:	43% PU / 16% PES / 7% CO
Weight:	700 gr/m ²
Roll Width:	min. 140 cm
Roll Length:	+/- 25 m
Abrasion:	>400.000 cycles (MARTINDALE)
Cold Crack:	-30 °C
Light fastness:	>6 EN ISO 105B02 (Blue Wool Scale)
Colour fastness to Rubbing (dry):	4-5 EN ISO DIN 54021 (Grey Scale)
Crockmeter (dry):	4-5 EN ISO 105X12:2002 (Grey Scale)
Flame retardancy*:	EU EN 1021 Part 1 & 2 EU IMO RES A652 (16) UK BS5852 (CRIB 5) US FMVSS302

*This term and any corresponding data refer to the typical performance in the specific tests indicated and should not be construed to imply the behaviour of this or any other material under actual fire conditions.

FINISHES AND TREATMENTS

PVC & PHTHALATE FREE

Bacterial Resistance:	JISZ 2801 Sanitized
Fungal Resistance:	EN ISO 846A Sanitized
Antibacterial:	Will not support microbial growth including MRSA

SUSTAINABILITY

REACH | RoHS

CARE AND CLEANING      

For optimum care and cleaning please read the following instructions and recommendations.

Disinfectant Use

To minimize the risk of contamination and spreading of bacteria and viruses, good hygiene, good maintenance, and regular cleaning and disinfection of fabrics is essential.

The virus that causes COVID-19 is a so-called enveloped virus with a fatty outside layer. This structure is easily destroyed using regular surface disinfectants and detergents.

Cleaners and disinfectants have been tested with no adverse effects when cleaning guidelines are followed as directed:

- Clean surface with soap and water to remove all visible dirt and stains (stains and spills should be removed immediately);
- Rinse surface with clean water and wipe with clean towel;
- Disinfect surface by gently rubbing with a cloth or sponge moistened in a disinfectant based on a 70% alcohol solution or 1% chlorine bleach solution. When using a disinfectant alcohol based, please consult the Material Technical Specifications to confirm its resistance to the solution. Always try the cleaning method in a hidden area first to see the results.
- Rinse and dry with a cotton cloth (do not saturate the surface)
- Do not use multipurpose products, waxes, solvents or abrasives;
- For optimal results, we recommend regular maintenance of the product.

Cleaning after Disinfection:

- Rub gently with a cloth or sponge moistened in a soapy water solution;
- Stains or spills should be removed immediately;
- Rinse and dry with a cotton cloth;
- Do not use multipurpose products, waxes, solvents or abrasives;
- For optimal results, we recommend a regular maintenance of the product.

Incorrect handling of the product during assembling and upholstery, as well as the non-observance of the care and cleaning instructions or the use of inadequate cleaning products or instruments may damage the protective layer irreversibly.

Some textile dyes, such as those used in jeans or others may affect the surface of the synthetic leathers permanently. The migration of textile dyes or any other external contaminants is expressly excluded from any guarantee.
