INFINITY LUXURY WOVEN VINYL

IN- & OUTDOOR

Infinity features a unique vinyl foam backing which makes it ideal for use on different types of surfaces. Infinity Luxury Woven Vinyl is strong, comfortable, modern, convenient and an excellent choice for the marine, contract, hospitality, healthcare, wellness and even for home use.

Infinity is easy to clean, UV and stain resistant, dirt repellent, dries quickly and incorporates antimicrobial and anti-bacterial technology which prevents growth of bacteria.

The material is resistant to petrol, diesel and motor oil and is not affected by bird and spider droppings.

Compared to other sorts of floor covering, the maintenance costs in the long term are low.

The material is durable, sound absorbing and 100% recyclable.

Composition:
100% woven vinyl
100% vinyl foam backing

Width:
1,50 and 3,00 meter

Application:
Commercial as well as recreational for boats, caravans, cars, houses, swimming pools, gardens, shops and event halls.

MARINE TUFT CARPETS

IN- & OUTDOOR

Marine Tuft is a unique, stylish, comfortable and durable indoor and outdoor floor covering. With a maritime look, it is particularly well-suited for use in the maritime/water sports sector.

The Marine Tuft products are made of high-quality materials; the UV, seawater and chlorine water resistant fibres and the permeable Aquabac backing ensure durability in a wide range of applications.

Marine Tuft floor covering is soft for your feet, easy to clean, lightweight, sound absorbing and heat resistant.

Marine Tuft can be laid either loose or glued and is suitable for boats, caravans, houses, swimming pools, gardens, conservatories, shops and event halls.

Composition:
Polypropylene with Aquabac backing
100% marine grade solution dyed BCF fibres

Width:
1,95 and 3,95 meter
(depending on the colour, see website)

Application:
Commercial as well as recreational for boats, caravans, cars, houses, swimming pools, gardens, shops and event halls.
(Intensive home use, light office use)

NAUTIFLOOR VINYL FLOORING

IN- & OUTDOOR

Nautifloor is a PVC floor covering with a teak effect, only 2 mm thick for indoors and outdoors. Nautifloor is not designed only for water sports, it can also be used in hotels, restaurants, shops and houses.

Unlike vinyl floors with paper or felt backing, Nautifloor is produced with a stable backing that will not tear even in extremely warm or cold temperatures.

Nautifloor is flexible, 100% waterproof and extremely wear resistant. In addition, the material is stain resistant and Nautifloor has excellent non-skid properties. The material is extremely durable and has high fire-retardant properties (IMO A652).

Composition:
100% vinyl
100% polyester knitted backing

Width:
1,80 meter

Application:
Commercial as well as recreational for boats, caravans, cars, houses, swimming pools, gardens, shops and event halls.

SOFTEX MARINE CARPETS

IN- & OUTDOOR

Softex is a water resistant carpet which is specially made for upholstery for walls and flooring in boats and cars.

Softex is made from Ecofi®, a high-quality polyester fiber made from 100% post-consumer recycled plastic bottles.

Softex is UV-resistant, lightweight, durable, flexible and easy to clean.

The material is mold and mildew resistant and does not fray.

Softex is simply to cut and can seamlessly build together.

Composition:
100% Solution Dyed Polyester Fiber

Width:
1,83 meter

Application:
Commercial as well as recreational for boats, caravans, cars, houses, swimming pools, gardens, shops and event halls.
