For all Sunbrella fabrics.
- **Powerful Formula**
Removes everyday spills and stains to leave your fabric looking brand new.
- **Specifically Formulated to Clean and Treat Sunbrella Fabrics**
Including upholstery, cushions, umbrellas, fabric awnings, boat covers, Bimini tops, canvas, and other fabrics.
- **Made for Use on Water-Safe Fabrics**
Always spot test on non-Sunbrella fabrics
- **Non-PFAS Formula**

FAQs

How does Sunbrella Clean work?

Sunbrella Clean is an easy, safe, and effective solution that breaks down everyday dirt and grime on water-safe fabrics and surfaces.

Can I use Sunbrella Clean on all surfaces?

Sunbrella Clean has been tested and approved for use on all Sunbrella fabrics, including indoor and outdoor upholstery and Horizon® Marine Vinyl. Sunbrella Clean is also safe for use on most other water-safe fabrics and surfaces but should always be spot tested before use on non-Sunbrella fabrics. Test a small, hidden area and examine when dry. If color or texture is affected, do not use.

Do I need to test for colorfastness before using?

This formula has been tested and approved for use on all Sunbrella fabrics and vinyl, so no trial testing is needed for use on Sunbrella products. Colorfastness should always be tested before using on any non-Sunbrella surface.

What spills does Sunbrella Clean work on?

Sunbrella Clean works great on everyday dirt, grime, spills, and water based stains. For specific cleaning information, download these 2 documents:

What is a water based stain?

Stains fall into one of two categories; water based or oil based. Water based stains include common household drinks like coffee, milk, fruit juice, soft drinks, beer, and wine; or foods like fruit/berries, ketchup, and ice cream, to name a few. Any water based stain can be treated using Sunbrella Clean Multi-Purpose Cleaner. For oil based stains, we recommend using Sunbrella Extract Oil Based Stain Remover.

Sunbrella® Restore™ Fabric Protector & Repellent

Textile protector that restores your Sunbrella fabrics to their original water repellency while protecting them from splashes and weather conditions.

Why Retreat my Fabrics ?

After many years of use or several thorough seasonal cleanings, retreating your Sunbrella outdoor fabrics restores and strengthens their natural properties - like water and stain repellency - that may have been lost over time.

Key features and benefits

- **Unique Formulation**
Protects against the elements and water-based spills.
- **Invisible, Protective Layer**
Will not impact the look or feel of outdoor fabrics.
- **Helps Reduce Drying Time**
When fabrics get wet or rained on
- **Specifically Formulated to Clean and Treat Sunbrella Fabrics**
Including upholstery, cushions, umbrellas, fabric awnings, boat covers, Bimini tops, canvas, and other fabrics.
- **Made for Use on Water-Safe Fabrics**
Always spot test on non-Sunbrella fabrics
- **Non-PFAS Formula**

FAQs

How does Sunbrella Restore work?

Sunbrella Restore adds an invisible layer of protection to your outdoor fabrics, restoring lost water repellency and protecting fabric from the elements.

What surfaces can I use Sunbrella Restore on?

Sunbrella Restore has been tested and approved for use on all Sunbrella fabrics (except Horizon® Marine Vinyl). Sunbrella Restore is also safe for use on most other water safe fabrics but should always be spot tested before use on non-Sunbrella products. Test a small, hidden area and examine when dry. If color or texture is affected, do not use.

Do I need to test for colorfastness before using?

This formula has been tested and approved for use on all Sunbrella fabrics (except Horizon® Marine Vinyl), so no trial testing is needed for use on Sunbrella products. Colorfastness should always be tested before using on any non-Sunbrella surface.

Do I need to retreat my Sunbrella products?

Sunbrella fabrics are engineered to provide long-term performance. However, after repeated thorough cleanings or extended use, Sunbrella Restore is a great option if you are looking for an easy way to refresh your fabrics. For specific cleaning information, download this document:

Can I use this product indoors?

This product is for use outdoors in well-ventilated areas only.

How many square feet will a bottle of Sunbrella Restore cover?

A 1L bottle of Sunbrella Restore covers 15m² on average.
