

Pen & Ink Remover

Special stain remover for ballpoint pen and ink stains

Pen & Ink Remover

Special stain remover for ballpoint pen and ink stains. The Pen and Ink Remover works specifically on the characteristics of stains of ballpoint pen, other pens or watercolor. Special color solvents release the pigments and remove them from the texture.

Instructions for use

Apply the Pen & Ink remover to the soiled surface and leave on for a few seconds for an optimal result. Use a microfibre cloth, sponge or a soft brush to clean the contaminated part.

After every use, rinse the surface thoroughly with a wet cloth. Rinse the sponge or cloth frequently with lukewarm clean water.
(Under no circumstances use a scouring pad.)

Precautions

First test on a non visible spot. It is also important in case there is a stain, the Pen and Ink Remover is used first. If the stain has been treated before, the removal will be more difficult.

Vyva Fabrics is not liable in any form whatsoever if a stain can not be completely removed.

Hazard statements

Highly flammable liquid and vapor. May be fatal in case the substance gets into the respiratory tract when swallowed. May cause drowsiness or dizziness. Harmful to aquatic organisms, with long lasting effects.

Safety recommendations

Keep away from heat, hot surfaces, sparks, open fire and other sources of ignition. Do not smoke. IN CASE OF INGESTION: Immediately consult an ANTI-VENOM CENTRE or doctor. Do not stimulate vomiting. In case of fire: Extinguish with sand, carbon dioxide or extinguishing powder. Store in a well-sealed container. Store in a cool, well-ventilated place.

Additional hazard information

Repeated exposure may cause a dry or cracked skin.

Danger!

Hazardous components for labeling

Hydrocarbons. C9 -C10, n-alkanes, iso alkanes, cyclic aromatics <2%
